

Classes

NCGR Online Education "Toward Mastery and Certification"

Created and taught by Meira Epstein, C.A., NCGR-PAA

The courses are geared towards the PAA-NCGR Certification Program, and follow the four-level PAA-NCGR curriculum and exams. Taking the four levels – from beginners to advanced – prepares the student for final Level-IV certification in consulting, research, or education.

For those not seeking certification, these classes can be an invaluable opportunity to expand and improve the knowledge base, all the way from beginner to advanced:

From the foundation of Astronomy-for-Astrologers and Chart Construction, through advanced Forecast Techniques, Horary and Electional techniques, Classical and Modern methods, such as the Uranian System, and more. The advanced classes for Level-IV include Chart Rectification and Personal Consultation. Throughout the courses students get assignments and practice.

The courses are prepared and taught by Meira Epstein, C.A., NCGR-PAA meirabe01@gmail.com
Registration and curriculum details are available at <https://geocosmic.org/ncgr-education/>

Courses are offered as Spring and Fall semesters.

LEVEL-I: Astronomy, Natal Chart Calculation, Foundations & Basic Delineation
